

Extended School Year Data Sheet

Student Name:

School:

Grade:

All children "regress" --lose progress, forget, revert to previous behavior -- to some extent between school years. It must be determined whether a child's regression would likely be substantial, and whether the child would require a greater than usual time to "recoup" -- to get back to the level the child had achieved before a break in service. Did student recoup skills after the break?
