

Ottis Foster
Education Foundation Board Member

Ottis is a co-founder of Langerman Foster Engineering Company and a Licensed Professional Engineer. He joined the McGregor ISD Education Foundation because he believes the money raised by this foundation will provide more opportunities for McGregor children to receive one of the best educations available in Central Texas.

Ottis began working in the geotechnical and construction testing industry in 1978 while attending the University of Texas at Austin (UT). His work experience includes schools, commercial and industrial facilities, pavements and residential projects.

Ottis earned a Bachelor of Science in Civil Engineering from UT El Paso in 1982 and his Master in Urban Affairs from UT Arlington in 1991. He is conversant in Spanish. He is a past school board member of McGregor ISD and past president of the Mother Neff State Park Association. He is also affiliated with The American Society of Engineers (ASCE), National Society of Professional Engineers (NSPE), Geoprofessional Business Association (ASFE-GBA) and Associated General Contractors - Central Texas Chapter. He enjoyed 2 years as Executive Director of the Texas Section of ASCE.

Ottis married Heidi (Burke) in 1988. Heidi is currently a science teacher at the McGregor ISD Elementary School. Together they raised three wonderful children in the McGregor School District. In his spare time, Ottis enjoys teaching "5th Sunday" Sunday School at First United Methodist Church of McGregor, renovating the farm house with Heidi and participating in the McGregor community and church life.
