College Cost Estimator

10TH GRADE SCHOLAR SUCCESS PROGRAM
Estimate the Costs of College

Did you watch "Estimating your College Costs"? *

Yes No

Did you complete a College Costs Estimator for yourself so you could see YOUR current financial aid eligibility in addition to your potential 21st Century Scholarship? *

Yes No

Which answer best describes what the Expected Family Contribution (EFC) amount is? *

The EFC is an estimate of your family's financial strength and is used to calculate the amount of need-based aid you may be eligible for. The EFC is NOT the amount of money that your family will have to pay for college.

The EFC is the amount of money I am expected to receive from scholarships and loans for that year.

The EFC is the amount of money I am expected to borrow in order to pay for college for that year.

College Cost Estimator

Which answer best describes Self-Help Aid? *

Self-Help Aid is the amount of money I am expected to receive from scholarships and grants for that year.

Self-Help Aid is the amount of money I would need to borrow to cover the full cost of attendance at that college for that year, but I do not necessarily need to borrow that full amount.

Self-Help Aid is the amount of money I will receive from the 21st Century Scholars program.

Which answer best describes Gift Aid? *

Gift Aid is the amount of money I am expected to receive from scholarships and grants, including the 21st Century Scholarship, for that year.

Gift Aid is the amount of money that I and my family are expected to contribute to my education for that year.

Gift Aid is the amount of money I would need to borrow to cover the full cost of attendance at that college for that year, but I do not necessarily need to borrow that full amount.

College Cost Estimator

If student loans are included in my financial aid estimate, I understand that: (check all that apply) *

I am required to borrow the full amount.

If I have to use a student loan, the amount listed on my estimate may actually be more than I need to borrow, and I should only borrow what I actually need to cover my additional expenses.

I may not have to use any student loans at all if I find other ways to cover my expenses, such as through additional scholarships, savings and working.

I will have to repay any student loans I take out PLUS interest

Did anyone (school counselor, parent, mentor, etc.) help you complete your Indiana College Costs Estimator? *

Yes No

How did this activity help you with your college planning? *

THANKS !
